Instructions

1. Print the template and cut out the pieces.
2. Using glue or double-sided tape, attach the two large pieces to each other with the A and B tabs. The buckle should overlap the B tab.
3. Use the C tabs to attach the top of the hat, and use the D tabs to attach the brim.
4. Fold Goofy's right ear in half so the design is two-sided, then secure with glue or double-sided tape. Butterfly the tabs outward, and use them to attach the right ear to the hat. Repeat this step with the left ear.
