

Print Pooh and his hunny pot on regular paper or cardstock. Fold Pooh in half along the dotted line so the design is two-sided. Fold the tab under his feet outward to create a stand. Using glue or double-sided tape, secure Pooh's front and back sides together. Be careful not to glue or tape the tabs you folded outward. Make the folds at the base and sides of the hunny pot piece away from you to form the pot. Make the folds at the lip of the pot towards you. Glue the A tabs on the hunny pot to the inside of the corresponding pieces. Tuck the B tabs into the top of the pot to close it. Finally, align Pooh's body with the dotted line printed at the top of the hunny pot and secure Pooh's body to the pot with glue or double-sided tape.
