How I Spent My Summer Vacation

By ____________________________

This summer was __________________ and filled with __________________

I started the summer with a trip to __________________, where I took pictures of
______________________ and swam in the __________________ which was very __________________

I spent many hours playing __________________
with my __________________. One day I scored __________________ so my team
won the __________________!

Some days, the __________________ truck would drive down my
______________________, and when I heard __________________ playing in the distance, I would
run outside to buy a nice cold __________________, that I would have to eat before it melted.

On rainy days, I passed the time by playing my __________________ in my room, or reading
a __________________. On extra-hot days, I would go swimming at the __________________
to cool off. There’s nothing like __________________ in a refreshing pool!

Even though the summer is over, I am looking forward to the new school
year so that I can learn new __________________ and make new
____________________. And, the start of the year means it’s time to start thinking
about Halloween! This year, I think I’m going as __________________
which will definitely get me lots of __________________ when I trick or treat!
